Conflict Mineral Statement

April 2021

In August 2012, the United States Securities and Exchange Commission (“SEC”) issued its final rules regarding “Conflict Minerals” (known as ‘3TG’ – Tantalum, Tin, Tungsten and Gold) as defined in and required by section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Act”).

Capital Aluminium Extrusions Limited is aware of our obligations with regards to laws and regulations regarding “Conflict Minerals”, and endeavours to establish the extent that our products contain “Conflict Minerals” and whether such “Conflict Minerals” come from the Democratic Republic of Congo (DRC) and the adjoining countries named in the Act.

The Capital Aluminium Extrusions Limited, being an extruder of Aluminium, does not directly source or process “Conflict Minerals”.

As part of our due diligence, The Capital Aluminium Extrusions Limited has contacted its current supplier base to verify their continued compliance with the regulations. Based on the current information received we declare that to the best of our knowledge although some product may contain a small amount of “Conflict Minerals” in the form of recycled or scrap material, they do not contain metals sourced from the DRC or surrounding countries.

The situation will be reviewed annually and this statement up-dated accordingly.

Complete solutions for extruded aluminium components

- high tolerance aluminium extrusions • wide range of alloys • machining • assembly • finishing • painting • anodising • alclacroming • stock management
